KUMAR MANGLAM
React Developer

I have been in front-end development for the past 2 years. I am a self-learner, and I enjoy taking on challenges. I thrive in challenging environments as they keep me motivated. I look forward to working collaboratively as well as spearheading independent projects.

SKILLS

Javascript	React JS
HTML5	Tailwind CSS
Cascading Style Sheets (CSS)	Front-end Development
SASS	GITHUB
DSA	C++
Python	Git
npm	JSX
MySql	PostgreSQL

PROJECTS

NotepRO V2 *(January 01, 2023 - Present)*
ReactJS, Redux, React Router:

It is a note-taking app built with HTML, CSS, JavaScript, React and Redux. The UI design is inspired by Google Keep, offering features for note creation, editing, archiving, and deletion. The project includes modular and production level code and file structure.
