EDUCATION

Great Learning Academy	Electronic city, bangalore
Java Fullstack Development Training	*Sep 2023 – Present*
Maharaja Agrasen Institue of Technology	Delhi
Bachelor of Technology, ECE, 8.8CGPA	*Aug 2019 – Aug 2023*
Modern Convent School	Dwarka, Delhi
12th, PCM, 90.4 Percentage	*Apr 2017 – Mar 2018*
Modern Convent School	Dwarka, Delhi
10th, 8.6 CGPA	*Apr 2015 – Mar 2016*

PROJECTS

Expense Application | *Java, Spring boot, Jwt, React, Redux, Tailwind, Scss*   Jun 2023 – Present

- Designed and implemented a robust Full Stack application utilizing Spring Boot for the backend, incorporating advanced features such as JWT for secure authentication
- Implemented React as the primary framework for the web application, incorporating Redux for state management and Tailwind CSS and Scss for streamlined styling.
- Executed Spring Security to handle authentication and authorization processes, ensuring a secure and controlled access environment
- Employed advanced techniques to visualize data on the dashboard using React charts, providing users with an insightful and interactive data representation
- Implemented real-time pagination, sorting, and filtering functionalities to enhance user experience and ensure optimal performance
- Backend GitHub Link | Frontend GitHub Link

Notepro V2 Application | *React, Redux, JavaScript*   June 2023

- Created Notes Keeping Application using React and Redux
- Published the Application on Netlify
- Composed continuous Editing, Updating, Archiving, and Delete features
- Simplified Production level code design and File structure Used for better organization and scalability.
- Live Link| GitHub Link

TECHNICAL SKILLS

Languages: Java, Javascript, Python, C/C++, SQL, HTML, CSS
Technicals: Spring Boot, Spring Security, OOPs, Data Structures and Algorithm, Responsive design, Web development
Frameworks: React, Material-UI, Redux, SASS, Tailwind
Developer Tools: Git, VS Code, Visual Studio, IntelliJ IDEA, Eclipse
Front end technologies: React.js, NPM, Material UI

ACHIEVEMENTS

- Mentored and guided junior members in the Wave Developer Society on React development concepts and best practices.
- Organised a Drone Workshop in Second Year as a volunteer in IEEE club
- Demonstrated mastery in problem-solving skills and Data structures and alogorithms by successfully completing the GeeksforGeeks certification program with a top percentile score.
- Contributed significantly in the organizing committee for the college fest, coordinated event planning and execution.
